

Africa Re-examined: Through Lens and Pen

We are delighted to announce the launch of our highly anticipated art exhibition titled “Africa Re-examined: Through the Lens and Pen”.

This captivating exhibition presents a profound exploration of Africa’s rich history and culture, through the fusion of two powerful art forms – photography and illustration – inviting audiences to engage with powerful narratives depicted through the lens of renowned photojournalist Mohamed Amin and the insightful illustrations of acclaimed political cartoonist Gado. At ALN, we understand the power of art to elucidate the continent and tell its stories from its own perspective. And this exhibition is a testament to our commitment to supporting emerging artists and positively framing the narrative of Africa. Join us on this visual journey as we celebrate the remarkable talent and narratives that depict the richness of Africa.
