

Kenya, Singapore Sign Investment Treaty to Promote Africa – Asia Trade

Ahead of the 2023 Africa Singapore Business Forum, Kenya-Singapore recently signed a Bilateral Investment Treaty (BIT) testament to the two nations' commitment to promoting Asia – Africa trade and investment. The BIT aims to promote greater investment flows between Singapore and Kenya by protecting the interests of investors from both countries. It also gives greater confidence to investors to take up investment opportunities in either country by establishing a legally-binding agreement on how both countries should treat investments.
